

Living Hope

FOR CHILDREN

Encourage. Equip. Give Hope.

Dear Sponsors,

Thank you so much for generously providing your child with a Christmas gift. Please enjoy a thank you letter and picture from your sponsored child! Your gift supplied your child with a bag of food to share with their family as well as a second item their social worker chose according to their needs. These gifts blessed your Hope kid and provided them with a very happy Christmas!

Along with news of a joyous Christmas, we wanted to share some other wonderful things happening through your support. As you know, students in Uganda suffered the longest Covid related school shutdown in the world. Thanks to you, our faithful sponsors, we were able to deliver homework packets and keep up social support for our Hope kids during the shutdown. This strategy has paid off! We are thrilled to announce that we have received results from the nationwide tests taken by our Primary 7 and Senior 4 students. Every single one of our sponsored students passed their exams and are eligible to move on to the next level of schooling! Not only that, but many had very high marks. We praise God for His provision and these excellent scores.

Additionally, we are excited to tell you about the kick-off of a brand-new discipleship program for our Hope kids transitioning from high school into college. The program is called Rooted, and it began in January with a week of disciple makers training led by fellow board member Pastor Steve Waggoner. We are thankful our students have this opportunity to go deeper in God's Word and increase their love for Him during this pivotal time in their lives.

Your support means more than ever to us as we navigate challenges caused by a food shortage and high inflation in Uganda. As our students begin their school year this month, please be praying for them and for all of the staff and teachers working in our schools. They receive such encouragement from your prayers. Thank you for joining us in our mission to encourage, equip, and give hope to orphans and vulnerable children in Uganda.

In His Service,

Amy Klug

Board Member

*P.S. We have many children waiting for a sponsor. Stay tuned for information about how you can help through our upcoming **Plus One** campaign.*
