

August 2026

Dear Hope Givers,

We are so grateful for your continued support of our mission to provide education, discipleship and health services to encourage and equip orphans, vulnerable children and their communities. We hope you enjoy this letter from your sponsored child!

We are excited to share an update about the construction at Hope High School in Rubanda. We are filled with gratitude for God's provision for this campus and for what has been accomplished over the last three years. With your support, we have made tremendous progress. Together we have raised funds needed to build two dormitories, 7 classrooms, an administration building, and a library. Last month we kicked off our fundraising efforts for a multipurpose hall at our 3rd annual Golf for Hope Outing. We are elated to share that we raised \$50,000 – halfway to the funding needed for this building, which will provide our students with a dining hall, chapel, and a place for gatherings.

These buildings are more than bricks, walls, and roofs. They represent opportunity, hope, and a brighter future for children who deserve the chance to learn in a safe and supportive environment. The new classrooms provide much needed space for students to learn while the library (building in progress) will provide students with valuable resources that can encourage reading, learning, and academic growth.

None of this would have been possible without you. Every donation, every sponsorship and every person who participated in our fundraisers helped turn these dreams into reality. Your generosity is having a lasting impact- not only on our students today, but also on generations of children who will benefit from these facilities in the years ahead.

We want you to know how deeply appreciative we are of your partnership. You have helped us do far more than build buildings- you have helped us build a future for vulnerable children in Uganda.

Our Hope Kids thank you every day for your continued support!

With much gratitude,
Living Hope for Children Board of Directors
